
Title Financial Analyst

Reports to Accounting

Job Description

Array Technologies, Inc. (ATI) is the global leader in solar tracking. Based in Albuquerque, New Mexico, USA, the Company is experiencing explosive growth built on our best-in-class technology and dynamic team. ATI is seeking highly skilled, self-motivated people who want to accelerate adoption of clean and economic energy. If you meet these criteria please consider the company that has been leading the solar energy revolution for 27 years.

Do you find fulfillment in knowing you are playing a critical financial role supporting a market-leading product? ATI is currently seeking a Senior Financial Analyst to help take us to the next level of financial efficiency and optimization. In this position you will play a critical role in ensuring our growing operation remains on a steady track of growth on sound financial footing.

The Financial Analyst will be a principal contributor to ATI's long term growth strategy by performing thorough analysis on a range of systems and trends that impact, or may potentially affect the stability and continuing growth of the company. The position requires a hands-on, motivated professional with solid financial acumen and exceptional analytical skills. The position is full-time and exempt.

Duties and Responsibilities

- Maintain financial reporting “dashboard”. Perform complex financial analyses, prepare related presentations and present results including compilation and review of financial plans and budgets, taking into consideration actual performance, previous expenditures and estimated income and expenses
 - Track and analyze Key Performance Indicators
 - Carry out financial analysis at multiple complexity levels including rate of return, working capital, investments, budgeting, cost analysis, job analysis and financial and expense performance comparisons.
 - Develop presentations to management and the Board of Directors regarding the annual budget, monthly and quarterly actual to forecast analyses
 - Coordinate short term cash forecasting processes
 - Analysis of variances to budget/forecast for revenue/margin as well as operating expenses.
 - Financial modeling for various “what if” scenarios and the overall impact to the company.
 - Analyze product costing and pricing
 - Perform complex financial and operational analysis to support short term and long range strategic plans and operating budgets.
 - Evaluate data, prepares forecasts, analyzes trends and presents results pertaining to sales, operations, manufacturing, general business conditions and other areas.
 - Utilize computers and other tools in the creation, display and reproduction of charts, graphs and models relative to the operations of the assigned organization and advise management as assigned
 - Consult with and advise assigned management regarding advanced planning, consolidation and reporting issues.
-

Required Knowledge, Skills, and Abilities

- The ideal candidate should have strong finance knowledge and analytical skills along with proven ability in budgeting/forecasting and financial analysis.
 - Experience developing analysis and presentation material for investors, lenders and board
 - Excellent verbal and written communication and presentation skills.
 - Experience with integrated financial systems (SAP) preferred, but not required
 - Proficient at Microsoft Office (Excel, PowerPoint, Word) programs. Very strong Excel charting and graphics skill set.
 - Self-motivated and self-directed, with a high sense of urgency.
-

- Available to work a wide range of hours to meet information and analysis request deadlines.

Education and Experience

- Bachelor's degree in Finance, Accounting, or other related finance fields. MBA/CPA preferred.
 - Minimum of 4 years of experience in related fields.
-
