

FY2023 ESG & SUSTAINABILITY DATA DISCLOSURES

At Array, our business strategy is designed to take climate action by helping to facilitate the global energy transition. As a company dedicated to responsibility and long-term sustainability, we regularly identify the sustainability and ESG topics that pose opportunities and risks to our business. Our strategy is focused on understanding our stakeholder needs through regular engagement, managing the priority areas that pose the greatest risks and opportunities to our business, and communicating transparently on how we drive good governance into every function.

We have had a clear framework for our sustainability strategy informed through the lens of stakeholder materiality. In 2022, we conducted our inaugural materiality assessment by engaging key stakeholders to understand areas of sustainability risk and opportunity for our business and for society. We met with employees across the organization, including our STI Norland colleagues, along with members of the board, investors, and suppliers to determine the priority areas of our strategy.

ABOUT THIS DISCLOSURE This report contains forward-looking statements that are based on our management’s beliefs and assumptions and on information currently available to our management. Forward-looking statements involve risks and uncertainties, which may cause results to materially differ from those set forth in the statements. The forward-looking statements may include information concerning our projected future goals, results of operations, business strategies, and industry and regulatory environment. Forward-looking statements include statements that are not historical facts and can be identified by terms such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “will,” “would,” or similar expressions and the negatives of those terms. Forward-looking statements should be evaluated together with the risks and uncertainties that affect our business and operations, particularly those described in more detail in the Company’s most recent Annual Report on Form 10-K and other documents on file with the SEC, each of which can be found on our website www.arraytechinc.com. Except as required by law, we assume no obligation to update these forward-looking statements, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future. Topics that may be deemed material under the SASB Standards and/or the GRI Standards are not necessarily material for purposes of the U.S. federal securities laws or for other purposes. For additional information on the SASB Standards and the GRI Standards, please visit their respective websites. Certain of the data contained in this report is based on assumptions and estimates. Actual results may differ from the data presented.
