

QUALITY AND ENVIRONMENTAL POLICY

Founded in 1996 in Pamplona (Spain) by professionals with more than 30 years of experience on construction and industrial engineering, Soluciones Técnicas Integrales Norland S.L. (STI Norland) was the pioneer in Europe in the development of both fixed structures and solar trackers, and offers engineering, development, manufacturing, supply, and assembly services for commercial projects across the globe.

STI Norland has carried out numerous projects and works that stand out for their **great technical relevance** and uniqueness, as well as for reaching very high levels of quality and executing them at the established costs and times.

STI Norland's main objective is to customize such projects **in conformance with the requirements and necessities of every customer**, delivering appropriate technical solutions and global response for every project, also guaranteeing its realization with the highest levels of quality and return on investment. The service is provided globally from the main headquarters in Pamplona (Spain), and locally through subsidiaries in Australia, Brazil, Chile, Israel, Mexico, South Africa, and USA to directly serve such areas.

One of the main values of the company is its **highly qualified personnel** with extensive experience in several fields as required by the projects and works they involved in.

At **STI Norland**, we rigorously comply with our own **Integrated Quality and Environmental Management System**, with which we seek to maintain business excellence for the following purposes:

- Achieve **Continuous Improvement** in all our processes and in the projects offered to customers.
- Establish quality and environmental management **objectives**.
- **Minimize the ecological footprint** produced by our activity.
- Keep our **staff trained and up to date** with the latest techniques and resources in the sector.
- Rigorously **comply with all legal and environmental requirements** that affect our activity in every country where we carry out assembly work.

This Policy is effectively communicated to all company staff, and it is periodically revised for continuous adaptation.

Javier Coloma
